Feel our re.volution.
Live your experience.

Negli ultimi anni in Rock Experience si è spesso parlato di evoluzione. Per noi e per la nostra azienda, evoluzione significa aggiungere costantemente qualcosa di nuovo alla nostra visione, ai processi, ai prodotti, al modo di proporsi al mercato, nella comunicazione, nelle collaborazioni con i nostri Ambassador ed è nel nostro stile di vivere dentro le trame delle esperienze.

L'abbiamo capito nei 10 anni di storia e di cammino nel corso dei quali ogni scelta, ogni tentativo, ogni successo o fallimento ha contribuito al cambiamento, alla nostra evoluzione. Sono stati anni in cui ogni nuovo progetto è stato intrapreso come una sfida ricca di opportunità uniche e tutte importanti.

Abbiamo visto evolvere con noi tutto il settore del mercato outdoor, all'interno del quale si sono inserite logiche alimentate da nuovi utilizzi dei prodotti e da diverse nuove fasce di consumatori. Sono cambiate le abitudini e le ricerche, contribuendo a dare un senso ai prodotti nuovi e un nuovo significato a quelli consolidati: una sfida per la nostra azienda a ripensare a tecnologie e soluzioni innovative ecocompatibili.

Seguiamo con entusiasmo i nostri atleti nell'evoluzione da un'arrampicata praticata in passato da pochi appassionati, ad oggi, invece attività fitness presente in molte palestre indoor nelle città di tutto il mondo. Siamo testimoni attivi ed emozionati dell'infrangersi di record considerati insuperabili fino a pochi anni fa, ed al raggiungimento dell'arrampicata sportiva a status di sport olimpico, senza perdere la sua anima più libera e pura, dove l'esplorazione dei propri limiti resta il senso e il dono più reale dell'esperienza vissuta. Ragione per cui siamo, da sempre, partner di alcuni dei gruppi alpinistici più importanti al mondo.

Ci appassioniamo costantemente alle motivazioni che portano migliaia di atleti a correre distanze chilometriche, che per definizione vanno oltre il limite del conosciuto. Siamo motivati a fornire a tutti i nostri atleti corridori i prodotti più innovativi e performanti, affinché possano raggiungere i loro limiti vivendo esperienze di vita e come sportivi, a volte oltre l'immaginabile.

Quello che accomuna tutti i protagonisti di oggi in questo settore è la volontà di spingersi oltre, di trovare le proprie sfide nel quotidiano, le proprie montagne da scalare. Questa è la base dell'evoluzione in cui crediamo e il senso dell'esperienza più profonda e coinvolgente che auguriamo a tutti di poter sentire e vivere.

La nuova stagione, la nuova collezione, per noi non è un punto di arrivo, ma è sempre una nuova partenza, una nuova sfida, forti di ciò che sappiamo fare e curiosi di scoprire dove il nuovo ci saprà portare.
"Feel your experience. Live your experience." è assimilare e vivere ogni singola esperienza sempre e a prescindere!

Buone avventure ed esperienze a tutti.

In recent years at Rock Experience, we have often talked about evolution. For us and for our company, evolution means constantly adding something new to our vision, processes, products, the way we present ourselves to the market, in communication, in collaborations with our ambassadors, and it is in our style to live inside the plots of experiences.

We have understood this in our 10-year history and journey during which every choice, every attempt, every success, or failure has contributed to change, to our evolution. These have been years in which each new project has been undertaken as a challenge full of unique and all-important opportunities.

We have seen the entire outdoor market sector evolve with us, within which logics fuelled by new product uses and differet new consumer groups have entered. Habits and research have changed, helping to give meaning to new products and new purpose to established ones: a challenge for our company to rethink innovative eco-friendly technologies and solutions.

We enthusiastically follow our athletes in the evolution from climbing, once practiced by a few enthusiasts, to today, i a fitness activity found in many indoor gyms in cities around the world.
We are active and excited witnesses to the breaking of records considered unsurpassable until a few years ago, and to the achievement of sport climbing to the status of an Olympic sport, without losing its freest and purest soul, where the exploration of one's own limits remains the most real meaning and gift of the lived experience. This Is why we have always been partners of some of the world's most important mountaineering groups.

We are constantly passionate about the motivations that lead thousands of athletes to run kilometers-long distances, which are beyond the limits of the known. We are motivated to provide all our athlete-runners with the most innovative and high-performance products, so that they can reach their limits by living experiences in life and as athletes, sometimes beyond the imaginable.

What all of today's players in this industry have in common is the desire to go further, to find their own challenges in everyday life, their own mountains to climb. This is the basis of the evolution we believe in and the meaning of the deeper and more engaging experience we wish everyone to feel and live.

The new season, the new collection, for us is not a point of arrival, but is always a new departure, a new challenge, strong in what we know how to do and curious to discover where the new will take us.
"Feel your experience. Live your experience." is to assimilate and live each experience always and regardless!

Happy adventures and experiences to all.

CEO Rock Experience

BE ROCK

BORN TO

Undici anni fa, sotto la guida di Michele Frigerio alpinista e appassionato di sport invernali, l'azienda 7to7 S.r.l ha deciso di mettere insieme l'esperienza e le conoscenze acquisite nel corso di oltre 30 anni di esperienza nel settore, in un nuovo e ambizioso progetto chiamato **ROCK EXPERIENCE**. È un sogno che si avvera, facendo nascere così, nel panorama del mercato outdoor, un nuovo marchio che nasce in Italia e nella città di Lecco, da sempre riconosciuta capitale dell'alpinismo mondiale. Il marchio Rock Experience è per chi ha mete e obiettivi, ma cerca anche uno stile per raggiungerli. Ciascun capo Rock Experience nasce sul campo, in montagna e in parete, è tessuto con l'azione e l'esperienza di alpinisti, atleti. Una cucitura, una tasca, la ricerca dei materiali, ogni dettaglio è parte organica e armoniosa di un insieme funzionale, pratico ed ergonomico.

Un marchio con prodotti di alta qualità, dove innovazione e passione si fondono, dove la squadra ricerca e sviluppo aziendale partecipa direttamente ai progetti di atleti impegnati in differenti discipline, in questo modo il marchio riconosce le esigenze e interpreta i sogni degli uomini che vivono gli sport di montagna.

Il trekking, il trail running, il freeride, lo sci alpinismo, il climbing, l'alpinismo, gli sport attivi all'aria aperta e il tempo libero sono solo alcune delle community che il marchio Rock Experience racchiude offrendo loro proposte di abbigliamento comodo, innovativo e performante.
Ogni giorno il motore che spinge Rock Experience verso la crescita e nuovi obbiettivi è l'amore per quello che produce e per quello in cui crede senza mai fermarsi.

Dalla sua fondazione, nel 2013 la mission aziendale è semplice: investire nella ricerca, produrre e creare prodotti di alta qualità in termini di materiali, di costruzioni e funzionalità con un'attenzione sempre più rivolta alla salvaguardia del pianeta. Innovazione, passione per la montagna, rispetto per l'ambiente, sono le parole chiave usate per esprimere i tratti della filosofia di Rock Experience. Esse sono racchiuse nel concetto di ecosostenibilità, da noi denominato RE.VOLUTION PROJECT, driver aziendale delle nostre scelte e delle nostre azioni verso una produzione dal minor impatto ambientale possibile.

Le nuove collezioni vedranno negli anni nascere sempre più prodotti tecnici e innovativi, con materiali riciclati o eco compatibili. Una strategia precisa ha portato Rock Experience ad essere distribuita nei migliori negozi sportivi e punti vendita del comparto outdoor in Italia e in Europa.
Mercati estremamente attenti a prodotti di qualità, tecnici e con ottimo punto prezzo, un marchio che affronta sfide sempre più ambiziose e dove la meta finale non è come un punto di arrivo ma un passo in più verso nuove vette, sfide, obbiettivi e verso nuove esperienze.

Eleven years ago, under the guidance of Michele Frigerio mountaineer and winter sports enthusiast, the company 7to7 S.r.l. decided to put together the experience and knowledge acquired over more than 30 years in the Industry, in a new and ambitious project called **ROCK EXPERIENCE**. *It is a dream come true, thus bringing to life to a new brand in the outdoor market, born in Italy and in the city of Lecco, which has always been recognized as the capital of world mountaineering. Each Rock Experience garment is born in the field, in the mountains and on the wall, it is woven with the action and experience of mountaineers, athletes. A seam, a pocket, the search for materials, every detail is an organic and harmonious part of a functional, practical, and ergonomic whole.*

A brand with high-quality products, where innovation and passion come together, where the company's research and development team directly participate in the projects of athletes engaged in different disciplines, in this way the brand recognises the needs and interprets the dreams of people who live mountain sports.

Every day the engine that drives ROCK EXPERIENCE toward growth and new goals is the love for what it produces and what it believes in without ever stopping.

Since its founding in 2013, the company's mission is simple: to invest in research, to produce and create high quality products in terms of materials, construction and functionality with an ever-increasing focus on safeguarding the planet. Innovation, passion for the mountains, and respect for the environment are the keywords used to express the traits of Rock Experience's philosophy. They are encapsulated in the concept of eco-sustainability, which we call RE.VOLUTION PROJECT, the company driver of our choices and actions towards production with the lowest possible environmental impact.

Accessori imbottiti con piuma certificata

Accessories with certified down

Il fill power è un numero che misura la sofficità e la qualità di un prodotto in piuma. Il potere di riempimento misura la quantità di spazio occupata da un grammo di piumino in pollici cubi.

Perché è importante il fill power? Un potere di riempimento più elevato significa che la piuma ha una qualità migliore, un loft più elevato e mantiene la sua fermezza più a lungo. Questo perché un potere di riempimento più elevato significa che la piuma può intrappolare più aria, il che consente un maggiore isolamento.

Ciascuno dei cilindri qui sotto contiene solo un grammo di piumino. Con l'aumentare del potere di riempimento, la piuma può intrappolare più aria che, a sua volta, consente di ottenere un maggiore isolamento dalla piuma.

Fill power is a number that measures the fluffiness and quality of a down product. Fill power measures the amount of space one ounce of down will occupy in cubic inches.

Why is fill power important? Higher fill power means the down will have better quality, higher loft, and will retain its firmness longer. This is because higher fill power means the down can trap more air which allows for greater insulation.

Each of the cylinders below contain only one ounce of down. As fill power increases, the down can trap more air which, in turn, allows more insulation from the down.

TRATTAMENTO HYDRODOWN

Hydrodown è il nome del nuovo trattamento sviluppato da Molina per impermeabilizzare piumino e piuma.
Piume e piumini sono per natura idrorepellenti perché gli animali (uccelli acquatici) secernono un particolare tipo di grasso che rende il piumaggio resistente all'acqua.
Durante i processi di lavaggio e sterilizzazione industriale la piuma perde gran parte del suo contenuto di grasso e quindi viene a mancare la sua naturale caratteristica idrorepellente.
Con questo trattamento recuperiamo l'originaria caratteristica di impermeabilità del piumino e della piuma, rendendoli ideali per l'imbottitura di giacche e sacchi a pelo.

Il trattamento idrorepellente è:
- completamente ecologico e senza farina
- non interferisce con le linee guida Oeko-Tex e Bluesign

Le caratteristiche vincenti del piumino rimangono invariate, il materiale mantiene le sue naturali caratteristiche di leggerezza, isolamento termico e traspirabilità.

HYDRODOWN TREATMENT

Hydrodown is the name for the new treatment developed by Molina for waterproofing down and feathers.
Feathers and down are hydrorepellent by nature because the animals (waterfowl) secrete a particular kind of fat that makes the plumage water-resistant.
During the industrial washing and sterilization processes the feathers are going to loose most of their fat content and therefore its natural hydrorepellent feature is going to fail.
With this treatment we recover the original waterproof characteristic of down and feathers, making them ideal for the filling of jackets and sleeping bags.

The water-repellent treatment is:
- *completely eco-friendly and flourine-free*
- *does not interfere with the Oeko-Tex and Bluesign guidelines*

The winning features of down remains unchanged, the material keeps its natural characteristics of lightness, thermal insulation and breathability.

Il **Responsible Down Standard** è promosso da Textile Exchange, una delle più importanti organizzazioni non-profit internazionali per lo sviluppo responsabile e sostenibile nel settore tessile. RDS prevede il rilascio di una dichiarazione ambientale verificata da parte terza che assicura che piumino e piume impiegate per elementi di imbottitura siano ottenute da uccelli acquatici (oca e anatra) o terrestri (es. pollo e tacchino) che non siano stati oggetto di trattamenti che procurino dolore, sofferenza o stress e che sia applicato, il mantenimento della tracciabilità lungo l'intero processo produttivo. Rientra nella certificazione l'intera filiera produttiva: allevamento degli uccelli, macellazione, raccolta e lavorazione delle piume (selezionatura, depolverizzazione, lavaggio a fondo, eliminazione dell'acqua in eccesso, asciugamento), produzione degli indumenti e dei manufatti tessili. Possono essere certificati in base al RDS piumino e piume, i prodotti tessile e le attività manifatturiere.

Il Responsible Down Standard garantisce:

- Piumino e piume da allevamenti responsabili che rispettano il benessere animale;
- Prodotti tessili contenenti almeno il 5% di piume e piumino certificato;
- Attività e processi manifatturieri che utilizzino modelli e procedure gestionali conformi ai requisiti fissati.

*The **Responsible Down Standard** is promoted by Textile Exchange, one of the leading international non-profit organisations for responsible and sustainable development in the textile industry. RDS provides for the issuance of a third-party verified environmental statement that ensures that down and feathers used for down filling elements are obtained from waterfowl (e.g. goose and duck) or land birds (e.g. chicken and turkey) that have not been subjected to treatment that causes pain, suffering or stress, and that traceability is maintained throughout the production process. The entire production chain is covered by the certification: rearing of birds, slaughtering, collection and processing of feathers (sorting, dedusting, thorough washing, removal of excess water, drying), production of clothing and textile products. Down and feathers, textile products and manufacturing activities can be certified according to the RDS.*

The Responsible Down Standard guarantees:

- *Down and feathers from responsible animal welfare farms;*
- *Textiles containing at least 5% certified down and feathers;*
- *Manufacturing activities and processes using management models and procedures that comply with the requirements.*

L’innovazione nella progettazione 3D
Innovation in 3D design

Rock Experience, impegnata nell’innovazione costante e nella sostenibilità, ha integrato la progettazione 3D come parte centrale del suo processo di sviluppo dei prodotti. Questa nuova metodologia non solo consente ai designer di lavorare con modelli virtuali dettagliati, ridefinendo il modo in cui i capi di abbigliamento sono concepiti e sviluppati, ma contribuisce anche a ridurre l’impatto ambientale del settore. Grazie allo sviluppo del 3D, si riduce la necessità di prototipazione fisica e, di conseguenza, meno prodotti finiti da smaltire, contribuendo ulteriormente alla sostenibilità del processo produttivo. L’adozione della progettazione 3D, con l’integrazione di tessuti realistici, ha inoltre accelerato il ciclo di sviluppo, migliorando la precisione del design e della vestibilità del prodotto, consentendo un’esplorazione più rapida delle opzioni disponibili e riducendo la necessità di trasporti e quindi le emissioni di CO_2.

Rock Experience, committed to constant innovation and sustainability, has integrated 3D design as a central part of its product development process. This new methodology not only allows designers to work with detailed virtual models, redefining the way garments are conceived and developed, but also helps reduce the industry’s environmental impact. With the development of 3D, there is less need for physical prototyping and, consequently, fewer finished products to dispose of, further contributing to the sustainability of the production process. The adoption of 3D design, with the incorporation of realistic fabrics, has also accelerated the development cycle, improving the accuracy of product design and fit, enabling faster exploration of available options, and reducing the need for transportation and therefore CO_2 emissions.

La lana merino è un materiale molto leggero e confortevole. Possiede tutte le caratteristiche positive della lana e protegge il corpo dalle basse temperature. Merino è anche un tessuto traspirante e morbido al tocco con elevate proprietà di termoregolazione. Il tessuto misto lana previene il restringimento mantenendo le stesse proprietà della pura lana.

Merino wool is a lightweight and comfortable material. It has all the benefits of wool and protects the body from low temperatures. Merino wool is also a breathable and soft touch fabric with high thermoregulation properties. The wool blend fabric prevents shrinking whilst maintaining the same properties of pure wool.

Aspire to greater

La montagna è un luogo naturale, autentico, ancestrale, con una potente energia ispiratrice. Tutti amiamo la montagna.

C'è chi ama salirci su fino in cima e respirarne quell'aria a pieni polmoni dopo ore di fatica e di sudore per raggiungere la vetta... poi c'è chi ama ammirarla da lontano in estate, in inverno con la sua punta dipinta di bianco dalla neve o in autunno con i sorprendenti colori del foliage. L'ammira da lontano ma non per questo la ama meno di colui che arriva fino alla sua cima.
Niente può liberare creatività e fantasia come l'essere in mezzo alla natura più incontaminata, ai profumi di bosco e di terra bagnata o ai suoi sentieri che si perdono tra i profili acuminati.
È proprio per tutti quelli che amano le montagne che Rock Experience ne ha raccolto tutti gli ingredienti per creare collezioni di abbigliamento tecnico.

Rock Experience veste le passioni per l'outdoor e i suoi sport nel rispetto della montagna e della natura, con un impegno concreto per ridurne l'impatto ambientale attraverso una maggior consapevolezza ed una filiera produttiva orientata all'ecosostenibilità.

heights

Mountain ranges are genuine, authentic, ancestral places, charged with an outstanding inspiring power. We are all deeply in love with the mountains.

Those who climb them to their highest top, thus deeply breathing their pure refreshing air after hours spent sweating and struggling to reach their peaks... those who love beholding mountains from far during summer seasons, and admiring their white snowy winter peaks, or rather those overwhelmed by their breathtaking autumn foliage delicate nuances.
Far distance mountains beholders prove the same feelings as those climbing to the very top, nothing less.
Creativity and fantasy will definitely be freed when surrounded by the purest and intact nature, by wood and humid soil scents and by paths unwinding through sharp standing-out mountain ranges.
And for all mountain lovers, Rock Experience was able to successfully combine a variety of tasty ingredients to create fashion collections of high-level technical apparels.

Rock Experience is eager to passionately design and produce items for outdoor activities, in the full respect of mountains and nature, being thoroughly committed to reduce the impact on the environment thanks to a more solid awareness and an eco-friendly based production chain.

OUTDOOR

THINK ECOLOGY, WEAR ROCK TECHNOLOGY.

Ogni giorno il motore che ci spinge verso la crescita e nuovi obbiettivi è l'amore per quello che facciamo e quello in cui crediamo ed è per questo che Rock Experience non si è mai fermata. Dalla sua fondazione, nel 2013 a Lecco, la nostra mission aziendale è semplice: produrre e creare prodotti di alta qualità in termini di materiali, di costruzioni e funzionalità con una attenzione sempre più rivolta alla salvaguardia del nostro Pianeta. Il raggiungimento della sostenibilità è un processo complesso e lungo che possiamo paragonare alla salita di una grande montagna. L'acclimatamento è stato fatto e ora vogliamo puntare alla vetta. Non vediamo la meta come un punto di arrivo, ma un passo in più oltre la vetta.

Every single day the engine pushing Rock Experience towards new objectives is the love we feel for what we do and believe in and this is why Rock Experience never ever stopped. Since its foundation, back in 2013 in Lecco, our corporate mission has always been very simple: creating and manufacturing high quality products as for materials, constructions and functionality, always focused on firmly protecting our Planet. Achieving sustainability standards is a long lasting and complex process we can easily compare to high mountain climbing. The acclimatization period is over and now the time to reach the top has finally come. Our company goal is not a mere point of arrival but just a step forward towards the peak.

SOUTH FACE HOODIE

AL CENTRO DEL GRID FLOW SYSTEM SI TROVA L'INNOVATIVO SISTEMA DI EVAPORAZIONE CAPILLARE, UN APPROCCIO RIVOLUZIONARIO NELLA GESTIONE DELL'UMIDITÀ.

THE CORE OF THE GRID FLOW SYSTEM IS THE INNOVATIVE CAPILLARY EVAPORATION SYSTEM, A REVOLUTIONARY APPROACH TO MOISTURE MANAGEMENT.

Uno strato esterno avvolge il tessuto a griglia, formando una camera di evaporazione capillare. Questa camera dinamica gioca un ruolo fondamentale nel Grid Flow System creando infatti un ambiente controllato dove l'umidità espulsa incontra l'aria circostante. Questa esposizione deliberata avvia un processo sistematico di evaporazione, garantendo un flusso graduale e controllato di umidità lontano dal corpo.

An outer layer surrounds the grid fabric, forming a capillary evaporation chamber. This dynamic chamber plays a key role in Grid Flow System by creating a controlled environment where expelled moisture meets the surrounding air. This deliberate exposure initiates a systematic evaporation process, ensuring a gradual and controlled flow of moisture away from the body.

OBSERVER PANTS

Smart design, endless functions

La linea di pantaloni Observer è una fusione di funzionalità all'avanguardia e design senza tempo, pensata per gli amanti dell'outdoor che non si accontentano di compromessi. Con la parola d'ordine "smart" incisa nel loro DNA, questi pantaloni incarnano l'essenza stessa della versatilità e della funzionalità. Immagina di affrontare avventure in montagna o passeggiate nei boschi, sapendo di poter contare su un unico paio di pantaloni che si adatta a ogni tua esigenza. I nostri pantaloni Observer sono simili tra loro, ma ognuno presenta caratteristiche chiave che li rendono unici e irrinunciabili.
Per coloro che prediligono la massima flessibilità, abbiamo i pantaloni zip-off: lunghi quando serve, corti quando desideri, trasformabili solo tramite una zip. Per chi cerca ancora più praticità, i pantaloni T-zip offrono lo stesso vantaggio senza la complicazione di dover sfilare le calzature.
Per gli appassionati del classico, abbiamo i pantaloni Observer con chiusura tradizionale a bottone e gancetto nascosto. E per coloro che non vogliono perdere tempo, gli Observer con chiusura rapida tramite coulisse nascosta sono la risposta, garantendo un cambio veloce e senza sforzi.
Abbiamo anche la soluzione per le giornate più calde e afose: sia i pantaloni a chiusura classica che quelli a rapida chiusura sono disponibili anche nella versione bermuda, pronti a donarti freschezza e comfort anche nelle giornate più torride.
Entra nell'universo degli Observer e preparati a vivere ogni avventura con un passo sicuro e un look impeccabile.

The Observer pants line is a fusion of cutting-edge functionality and timeless design, designed for outdoor enthusiasts who are not content with compromise. With the watchword 'smart' engraved in their DNA, these trousers embody the very essence of versatility and functionality. Imagine going on adventures in the mountains or walks in the woods, knowing that you can rely on a single pair of trousers to suit your every need. Our Observer trousers are similar, but each has key features that make them unique and indispensable.
For those who prefer maximum flexibility, we have the zip-off trousers: long when you need them, short when you want them, and convertible only with a zip. For those looking for even more practicality, T-zip trousers offer the same advantage without the complication of having to unzip.
For fans of the classic, we have the Observer trousers with traditional button and concealed hook-and-eye fastening. And for those who don't want to waste time, the Observer with a concealed drawstring fastener is the answer, ensuring a quick and effortless change.
We also have the solution for the hottest and sultriest days: both classic and quick-closure trousers are also available in Bermuda shorts, ready to give you coolness and comfort even on the hottest days.

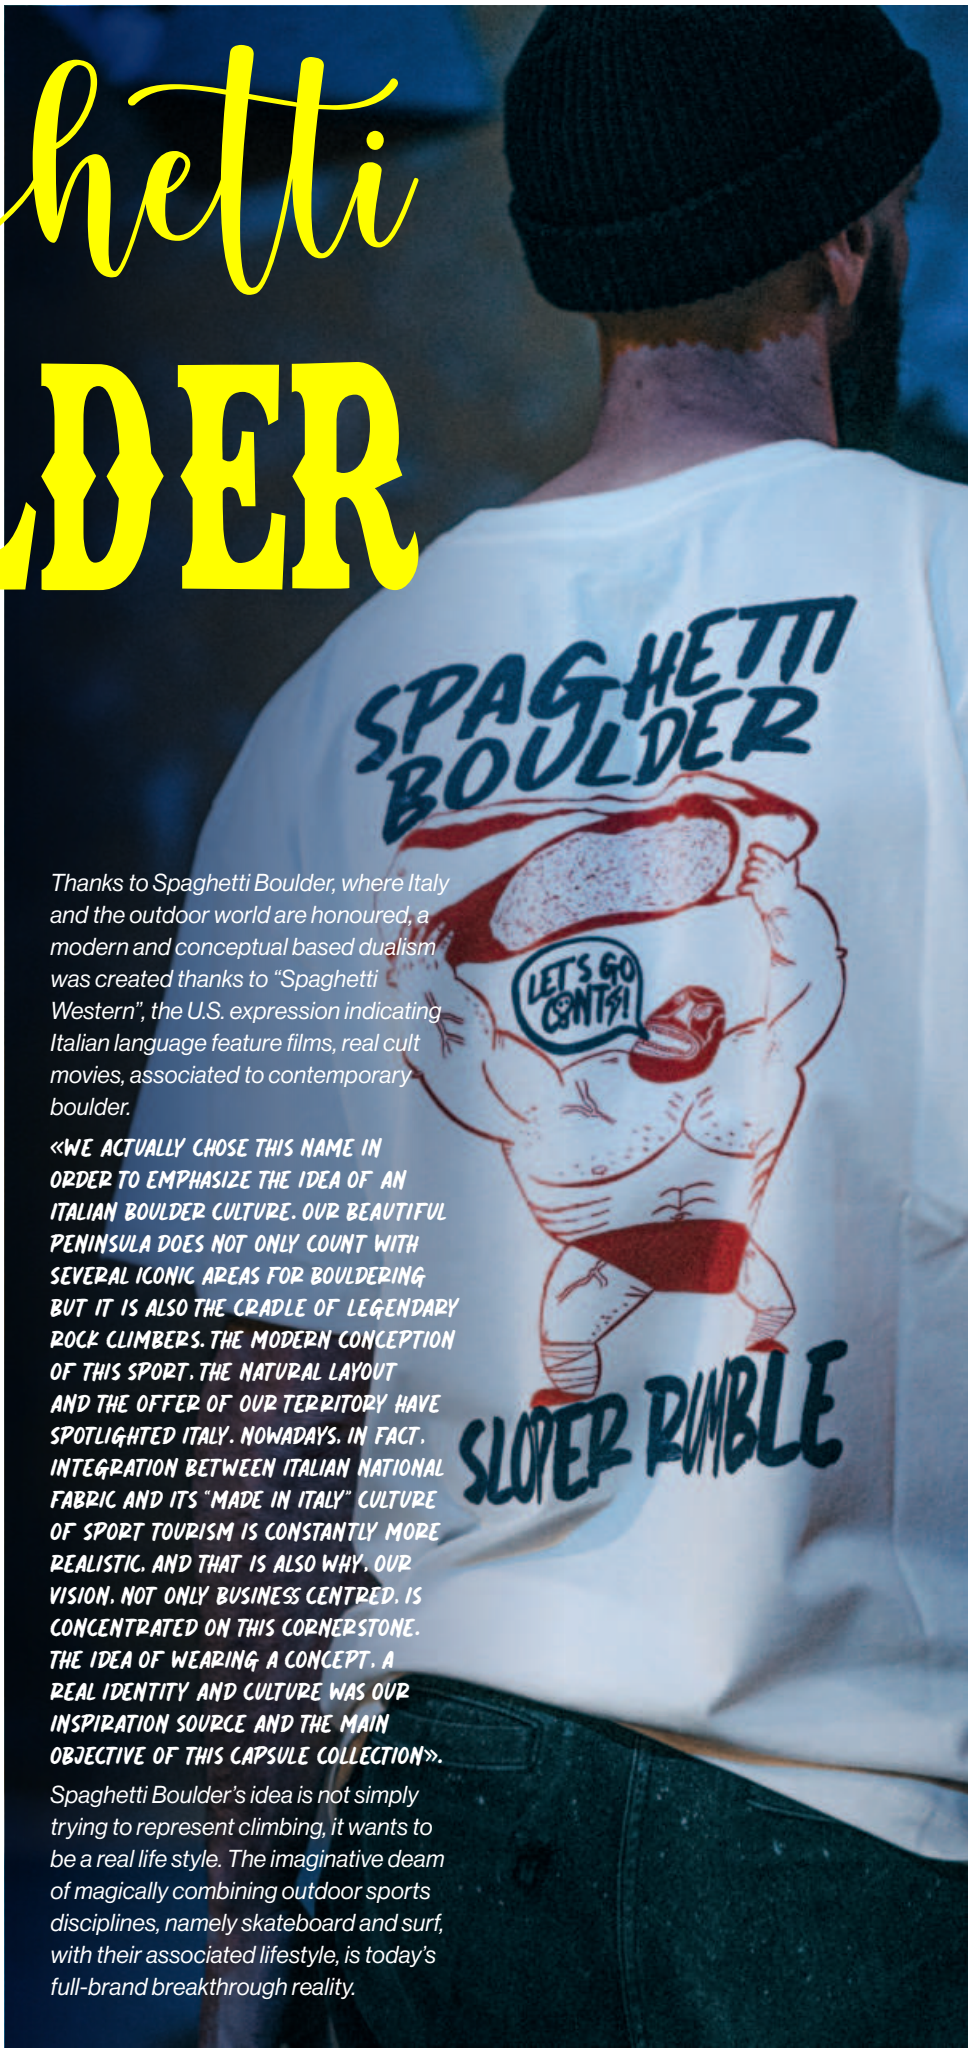
Spaghetti BOULDER



Con Spaghetti Boulder, in cui si legge un omaggio sia all'Italia sia all'outdoor, si crea un parallelismo moderno e concettuale con "Spaghetti Western", espressione nata negli Stati Uniti d'America, che indica i lungometraggi girati in italiano, oggi veri e propri cult, associato al boulder contemporaneo.

«ABBIAMO SCELTO QUESTO NOME PROPRIO PER ENFATIZZARE L'IDEA DI UNA ITALIAN BOULDER CULTURE. LA NOSTRA PENISOLA NON SOLO CONTA NUMEROSE ZONE ICONICHE PER L'ARRAMPICATA MA È ANCHE LA CULLA DI ARRAMPICATORI OGGI DIVENTATI LEGGENDE. LA MODERNA CONCEZIONE DI QUESTO SPORT, LA NATURALE PREDISPOSIZIONE E L'OFFERTA DEL NOSTRO TERRITORIO HANNO ACCESO I RIFLETTORI SULL'ITALIA. OGGI, INFATTI, LA VOGLIA DI INTEGRAZIONE SIA NEL TESSUTO NAZIONALE CHE NELLA CULTURA MADE IN ITALY DEL TURISMO SPORTIVO È SEMPRE PIÙ PRESENTE E COSTANTE. ANCHE PER QUESTO, LA NOSTRA VISIONE, NON SOLO DI BUSINESS, SI CONCENTRA SU QUESTO PUNTO CARDINE. L'IDEA DI POTER INDOSSARE UN CONCETTO, UN'IDENTITÀ E UNA CULTURA È STATA LA NOSTRA FONTE DI ISPIRAZIONE E PRINCIPALE OBIETTIVO DI QUESTA CAPSULE COLLECTION».

Spaghetti Boulder non vuole semplicemente rappresentare l'arrampicata, vuole essere un vero e proprio stile di vita. Il sogno di poter miscelare le discipline sportive dell'outdoor, tra cui anche skateboard e surf, con la lifestyle ad esse associata, è oggi una realtà sotto un marchio completo e innovativo.

Thanks to Spaghetti Boulder, where Italy and the outdoor world are honoured, a modern and conceptual based dualism was created thanks to "Spaghetti Western", the U.S. expression indicating Italian language feature films, real cult movies, associated to contemporary boulder.

«WE ACTUALLY CHOSE THIS NAME IN ORDER TO EMPHASIZE THE IDEA OF AN ITALIAN BOULDER CULTURE. OUR BEAUTIFUL PENINSULA DOES NOT ONLY COUNT WITH SEVERAL ICONIC AREAS FOR BOULDERING BUT IT IS ALSO THE CRADLE OF LEGENDARY ROCK CLIMBERS. THE MODERN CONCEPTION OF THIS SPORT, THE NATURAL LAYOUT AND THE OFFER OF OUR TERRITORY HAVE SPOTLIGHTED ITALY. NOWADAYS, IN FACT, INTEGRATION BETWEEN ITALIAN NATIONAL FABRIC AND ITS "MADE IN ITALY" CULTURE OF SPORT TOURISM IS CONSTANTLY MORE REALISTIC, AND THAT IS ALSO WHY, OUR VISION, NOT ONLY BUSINESS CENTRED, IS CONCENTRATED ON THIS CORNERSTONE. THE IDEA OF WEARING A CONCEPT, A REAL IDENTITY AND CULTURE WAS OUR INSPIRATION SOURCE AND THE MAIN OBJECTIVE OF THIS CAPSULE COLLECTION».

Spaghetti Boulder's idea is not simply trying to represent climbing, it wants to be a real life style. The imaginative deam of magically combining outdoor sports disciplines, namely skateboard and surf, with their associated lifestyle, is today's full-brand breakthrough reality.

ITALIAN BOULDER CULTURE

«L'INCONTRO CON ROCK EXPERIENCE RAPPRESENTA IL VERO PUNTO DI SVOLTA: POTER LAVORARE CON UN'AZIENDA STRUTTURATA È STATA INFATTI UN'OPPORTUNITÀ PIÙ UNICA CHE RARA. L'ESPERIENZA, IL NETWORK E LE PERSONE CHE LAVORANO PER ROCK EXPERIENCE HANNO COSTITUITO UN SUPPORTO FONDAMENTALE NELLA REALIZZAZIONE DEL PROGETTO. A OGGI, CON SENSO DI GRATITUDINE, SIAMO ASSOLUTAMENTE ORGOGLIOSI DEL RISULTATO RAGGIUNTO INSIEME.»

«MEETING ROCK EXPERIENCE WAS A REAL TURNING POINT: COLLABORATING WITH A WELL STRUCTURED COMPANY WAS ACTUALLY A UNIQUE OPPORTUNITY. EXPERIENCE, NETWORK AND THE STAFF WORKING FOR ROCK EXPERIENCE CONSTITUTED A FUNDAMENTAL SUPPORT FOR PROJECT REALIZATIONS. AS OF TODAY, WITH A HUGE SENSE OF GRATITUDE, WE ARE DEFINITELY PROUD OF THE MUTUALLY SHARED ACHIEVEMENT.»

ROCK MAIN SPONSOR

GRUPPO RAGNI DI LECCO

Rock Experience è main sponsor del Gruppo Ragni della Grignetta. Una partnership, una sinergia unica e forte che accomuna nobili valori e che condivide la stessa passione per gli sport di montagna.
Tra i principali obbiettivi di questa collaborazione troviamo una risposta alle necessità dei "Ragni" in termini di materiali e abbigliamento e, una maggior consapevolezza del brand Rock Experience che amplia così il proprio know how per metterlo a disposizione delle sue nuove collezioni.

Rock Experience riscopre la forza dei rapporti umani, acquisisce nuove esperienze sul campo per trasformarle in qualche cosa di utile e prezioso. Prendono vita così prodotti sicuri e perfetti per tutte le attività alpinistiche, quasi come l'arte e la mano di un sarto trasformano le necessità del suo cliente in un servizio tailor made.

La storia dei "Ragni" è fatta di momenti indimenticabili, veri, epici, appassionanti e, il passato non può trattenerla al solo ricordo. Grazie a Rock Experiece questa bellissima storia e tante altre che ancora scriveranno, d'ora in poi diventeranno ispirazioni per il futuro adeguandosi al presente.

Ogni passo, ogni centimetro di parete avvicinata viene affrontata con rispetto e coraggio divenendo così un'altra storia. Insieme metteremo la firma a nuove avventure, a sfide sempre più ambiziose lasciando una testimonianza di vita reale e di un progetto concreto che sarà indossato da chi sceglierà di vestire l'esperienza dei "Ragni" con il marchio Rock Experience.

Il futuro è passato da qui.

Rock Experience is the main sponsor of the "Ragni della Grignetta" team. A partnership, a unique and strong synergy matching noble values and sharing the same passion for mountain sports. Among the main objectives of this cooperation let's name a clear response to the needs expressed by the "Ragni" in terms of materials and clothing and, a major awareness of the Rock Experience brand, expanding its own know-how and pouring it into its new collections.

Rock Experience re-discovers the power of human relationships, acquiring new experiences on the field, turning them into something useful and precious. So, the secure and perfect products for all mountaineering activities have come to life, just as the handcraft of an artisan able to transform the needs of customers into a tailor-made service.

The history of the "Ragni" team is full of unforgettable real epic passionate moments, and the past cannot keep them as a mere souvenir. Thanks to Rock Experience, this beautiful history anecdotes and many more yet to be written, will become inspirations for the future, thus adapting themselves to present.

Every step, every centimetre of climbed walls must be faced with respect and courage and eventually become a new different story. Together we will sign new adventures, new ambitious challenges, witnessing a legacy of real life and concrete projects embodied by those who will choose to wear the "Ragni" experience under the Rock Experience label.

The future came from here.

ROCK EXPERIENCE
DISCOVERY TOUR

Esplorare, valorizzare e costruire comunità

Il **Discovery Tour**, sostenuto da Rock Experience, è un progetto intrapreso 3 anni fa con l'**obiettivo di esplorare e valorizzare nuove pareti e comunità** di arrampicatori.

La sua essenza in collaborazione con i gruppi alpinistici lombardi Ragni e Gamma e i Bobo's dalla Sicilia, sta nella scoperta non solo di territori inesplorati, ma anche nell'incontro con nuove comunità e nell'**arricchimento di territori con lo sviluppo di nuove falesie** e comunità attraverso l'arrampicata.

La nascita di un progetto non segue uno schema ben definito, è più un susseguirsi di idee istintive che vanno a creare un concetto e successivamente un progetto. Un po' come un'opera d'arte che si crea da diverse forme e visioni non ben definite ma istintive, che si sovrappongono, mutano e poi lentamente si armonizzano, prendendo forma e struttura verso il risultato finale.

Così per il progetto di **Rock Experience Discovery Tour** con le sue idee e caratteristiche, per cui fin dalla prima collaborazione a Stilo in Calabria, c'erano già spunti di collaborazione con la comunità di arrampicatori locali e idee
funzionali per lasciare un segno su quel territorio dove le future generazioni si sarebbero potute confrontare e migliorare. Così facendo sviluppare e lasciare una nuova falesia di riferimento, stesso fine per il progetto Bulgaria con il gruppo Alpinistico Ragni di Lecco e l'Istituto di Cultura Italiana di Sofia.

Il gruppo Ragni è stato il motore di queste tappe iniziali e Rock Experience, come sponsor ufficiale, sosteneva economicamente questi progetti e la loro realizzazione. Il passaggio successivo è stato con il progetto sviluppato in Sicilia, dove è stata sperimentata una nuova soluzione improntata su idee precedenti ma con la diversità di aprirsi ad altri gruppi e collaborare per 30 giorni alla chiodatura di pareti in maniera istintiva, come nei primi anni 80, con i ragazzi locali e gruppi Bobo's, Ragni e amici. Abbiamo così creato una sinergia nelle falesie vicino a Palermo (un progetto tutt'ora in corso). In questa nuova fase Rock Experience interviene più attivamente, comprendendo il valore di ciò è stato fatto e sostenendo attivamente il progetto.
Le stesse dinamiche, si sono poi create con la chiodatura della nuova falesia del Ferro in val di Mello, con l'obiettivo di valorizzare una falesia innovativa vicino casa anche in zone più accessibili.

A questo punto i team e Rock Experience intendono dare valore aggiunto al progetto, con azioni di comunicazione mirate non solo alla scoperta delle nuove falesie ma anche alla valorizzazione dei luoghi e delle comunità locali, rendendo funzionale l'inclusività e la collaborazione tra i vari gruppi alpinistici supportati dall'azienda: Ragni, Gamma e Bobo's, con il diretto coinvolgimento delle realtà di scalatori locali, lasciando in eredità nuove falesie attrezzate alle comunità internazionali dell'arrampicata, contribuendo così ad un futuro più turistico dei luoghi.

Con il 2024 sono previsti 3 nuovi progetti: Sicilia, Bosnia e infine in Lombardia. Ogni luogo incarnerà le idee, l'etica e i valori del progetto **Rock Experience Discovery Tour**, con obiettivo lo sviluppo di nuove aree di scalata, e improntato sui valori quali esplorare e valorizzare le esperienze con le persone e le comunità degli arrampicatori internazionali.

Progetto:

L'idea era di utilizzare il processo creativo usato x la Sicilia anche in una falesia nella zona proprio per lasciare un concetto fruibile vicino, il Ferro è una struttura in quota immersa nelle montagne con un accesso di tutto rispetto, per 2 anni una serie di persone si sono susseguite con me per creare la falesia, molte volte si trascorrevano più giorni giorni tra chiodare e scalare dormendo sotto un enorme masso sotto la falesia, il tutto a creato in un posto magico dove la scalata è solo un aspetto di quello che vivi lassù è sicuramente il Ferro è una falesia particolare nel mondo della scalata.
