

ROCK EXPERIENCE

Born in Lecco

"Nel 2013, sotto la guida di Michele Frigerio alpinista e appassionato di sport invernali, l'azienda 7to7 S.r.l ha deciso di mettere insieme l'esperienza e le conoscenze acquisite nel corso degli anni in un nuovo e ambizioso progetto chiamato ROCK EXPERIENCE. E' un sogno che si avvera facendo nascere così, nel panorama dell'outdoor, un brand che coniuga un prodotto di alta qualità con la passione sconfinata per la montagna e le sue emozioni.

Il trekking, il trail running, il freeride, il climbing, l'alpinismo, gli sport attivi all'aria aperta e il tempo libero sono solo alcune delle community che il brand ROCK EXPERIENCE racchiude offrendo loro proposte di abbigliamento comodo, colorato e performante.

In azienda si dice di produrre capi creati da runners per il running, da freeriders per il freeride, da climbers per il climbing. Ecco la forza di Rock Experience, frutto dell'incontro tra tre parole chiave: passione, know how e naturalmente, ROCK!

Ogni giorno il motore che spinge ROCK EXPERIENCE verso la crescita e nuovi obiettivi è l'amore per quello che produce e per quello in cui crede senza mai fermarsi. Dalla sua fondazione, nel 2013 la mission aziendale è semplice: investire nella ricerca, produrre e creare prodotti di alta qualità in termini di materiali, di costruzioni e funzionalità con un'attenzione sempre più rivolta alla salvaguardia del pianeta. Il raggiungimento della sostenibilità è un processo complesso e lungo che si può paragonare alla scalata di una grande montagna. L'acclimatamento è stato fatto e ora si punta alla vetta. Le nuove collezioni vedranno nascere sempre più prodotti tecnici e innovativi con materiali riciclati, in lana merino e con tessuti italiani.

Una strategia precisa ha portato ROCK EXPERIENCE ad essere distribuita nei migliori negozi sportivi e punti vendita del comparto outdoor in Italia e in Europa. Mercati estremamente attenti a prodotti di qualità, tecnici e con ottimi punto prezzo sono sfide sempre più ambiziose per il brand che non vede la meta come un punto di arrivo ma un passo in più verso nuove vette."

"In 2013, guided by a climber and winter sports lover, Michele Frigerio: the mission of the 7to7 S.r.l was to combine experience and the knowledge acquired throughout the years to create a brand new and extremely ambitious project known as ROCK EXPERIENCE. Thanks to this 'dream come true experience' focused on an outdoor activity scenario, a brand was created conjugating high quality products with an unlimited passion for the mountains as a source of incredible emotions. Trekking, trail running, free-ride, climbing, mountaineering, outdoor sports activities and leisure time are only some of the communities the ROCK EXPERIENCE brand is focused on; thus providing for a wide selection of comfortable colorful and performing garments.

Letting runners create running clothes, free-riders conceive freeriding apparels and climbers design climbing garments is the company winning motto. This is Rock Experience real power, brainchild of the union of three keywords: passion, know-how and of course, ROCK!

Every single day the engine pushing ROCK EXPERIENCE towards growth and new objectives is the constant never ending love we feel for what we do and believe in. Since its foundation, back in 2013, our corporate mission has always been quite simple: making investment in R&D, creating and manufacturing high quality products as for materials, constructions and functionality, always focused on firmly protecting our Planet. Achieving sustainability standards is a long lasting and complex process we can easily compare to high mountain climbing. The acclimatization period is over, and now the time to reach the top has finally come. Our new collections will show more technical and innovative products manufactured using recycled materials, merino wool and made in Italy fabrics. An extremely well-planned strategy has let ROCK EXPERIENCE be distributed in the best sport shops and stores selling outdoor activity garments, all over Italy and Europe. Markets oriented to quality products, combining technical properties and excellent point prices stand as extremely ambitious challenges for the brand whose final goal is not a mere point of arrival but just a step to overcome, searching for new and higher peaks."

La montagna è un luogo naturale, autentico, ancestrale, con una potente energia ispiratrice. Tutti amiamo la montagna. C'è chi ama salirci su fino in cima e respirarne quell'aria a pieni polmoni dopo ore di fatica e di sudore per raggiungere la vetta...poi c'è chi ama ammirarla da lontano in estate, in inverno con la sua punta dipinta di bianco dalla neve o in autunno con i sorprendenti colori del foliage. L'ammira da lontano ma non per questo la ama meno di colui che arriva fino alla sua cima.

Niente può liberare creatività e fantasia come l'essere in mezzo alla natura più incontaminata, ai profumi di bosco e di terra bagnata o ai suoi sentieri che si perdono tra i profili acuminati.

E' proprio per tutti quelli che amano le montagne che Rock Experience ne ha raccolto tutti gli ingredienti per creare collezioni di abbigliamento tecnico.

Rock Experience veste le passioni per l'outdoor e i suoi sport nel rispetto della montagna e della natura, con un impegno concreto per ridurre l'impatto ambientale attraverso una maggior consapevolezza ed una filiera produttiva orientata all'ecosostenibilità.

Mountain ranges are genuine, authentic, ancestral places, charged with an outstanding inspiring power.

We are all deeply in love with the mountains. Those who climb them to their highest top, thus deeply breathing their pure refreshing air after hours spent sweating and struggling to reach their peaks...those who love beholding mountains from far during summer seasons, and admiring their white snowy winter peaks, or rather those overwhelmed by their breathtaking autumn foliage delicate nuances.

Far distance mountains beholders prove the same feelings as those climbing to the very top, nothing less.

Creativity and fantasy will definitely be freed when surrounded by the purest and intact nature, by wood and humid soil scents and by paths unwinding through sharp standing-out mountain ranges.

And for all mountain lovers, Rock Experience was able to successfully combine a variety of tasty ingredients to create fashion collections of high-level technical apparels.

Rock Experience is eager to passionately design and produce items for outdoor activities, in the full respect of mountains and nature, being thoroughly committed to reduce the impact on the environment thanks to a more solid awareness and an eco-friendly based production chain.

ISPIRAZIONE

Una collezione dedicata a chi ama immergersi nella natura, nei suoi silenzi e nelle emozioni che solo una salita da tracciare, con pelli che profumano di nuove esperienze o boschi da attraversare sanno regalare. Fatica e sudore vengono ricompensati dall'adrenalina di disegnare linee su discese ancora immacolate e bianche o dal sentirsi parte di una natura inviolata pattinando su piste tracciate.

La proposta Back & cross - Country ski presenta capi che, grazie al loro tessuto leggero, performante e funzionale sono ideali per l'attività aerobica sulla neve. La ricchezza di dettagli tecnici con cui sono stati progettati i capi, assicura la massima traspirabilità e protezione anche durante l'attività fisica più intensa.

INSPIRATION MOOD

A clothes collection dedicated to those who love being surrounded by nature, overwhelmed by that silence and those emotions only felt while tracking a wall route, with seal skin covers oozing a scent of new experiences and woods to cross. All efforts and sweat are highly rewarded by the rush of adrenaline when drawing new lines on immaculate white slopes, feeling part of an untouched nature or skating on already tracked routes.

Back & cross - Country ski collection provides with garments perfect for aerobic activities on snow, thanks to the light performing and functional fabric used. A tech-driven detail enhanced design for clothing manufacturing, ensures high breathability properties and protection even during the most intense physical activity.

Passion is Energy

Ogni giorno il motore che ci spinge verso la crescita e nuovi obiettivi è l'amore per quello che facciamo e quello in cui crediamo ed è per questo che Rock Experience non si è mai fermata. Dalla sua fondazione, nel 2013 a Lecco, la nostra mission aziendale è semplice: produrre e creare prodotti di alta qualità in termini di materiali, di costruzioni e funzionalità con una attenzione sempre più rivolta alla salvaguardia del nostro Pianeta. Il raggiungimento della sostenibilità è un processo complesso e lungo che possiamo paragonare alla salita di una grande montagna. L'acclimatamento è stato fatto e ora vogliamo puntare alla vetta. Non vediamo la meta come un punto di arrivo, ma un passo in più oltre la vetta. Think Ecology, wear Rock Technology.

Every single day the engine pushing Rock Experience towards new objectives is the love we feel for what we do and believe in and this is why Rock Experience never ever stopped. Since its foundation, back in 2013 in Lecco, our corporate mission has always been very simple: creating and manufacturing high quality products as for materials, constructions and functionality, always focused on firmly protecting our Planet. Achieving sustainability standards is a long lasting and complex process we can easily compare to high mountain climbing. The acclimatization period is over and now the time to reach the top has finally come. Our company goal is not a mere point of arrival but just a step forward towards the peak. Think Ecology, wear Rock Technology.

Spaghetti BOULDER

Spaghetti BOULDER

“ITALIAN BOULDER CULTURE”

FAVORITO DAL SORPRENDENTE E POLIVALENTE PANORAMA LECCESE E FORTEMENTE SPINTO DALLA PASSIONE DI DUE ARRAMPICATORI
– FRANÇOIS ROTASPERTI E STEFANO MOTTA – NASCE IL PROGETTO SPAGHETTI BOULDER.

ENCOURAGED BY THE UNEXPECTED AND MULTI-FACETED LECCO PANORAMA AND STRONGLY SUPPORTED BY THE LOVE AND PASSION OF TWO INCREDIBLE CLIMBERS
– FRANÇOIS ROTASPERTI AND STEFANO MOTTA – THE SPAGHETTI BOULDER PROJECT WAS CREATED.

«In questi anni si è sentito parlare molto di arrampicata e infatti sempre più persone hanno cominciato, e continuano tutt'ora, ad avvicinarsi a questo mondo. Da parte nostra abbiamo però notato che oggi l'approccio a questa disciplina è leggermente diverso rispetto a quello del passato. Basti pensare che, con l'avvento delle palestre, l'arrampicata viene ormai praticata quasi più indoor piuttosto che all'aria aperta. Spaghetti Boulder intende inserirsi in questo contesto grazie a un design studiato proprio per essere adatto sia all'attività sportiva sia all'uso quotidiano».

«Bouldering has lately been frequently mentioned and for this very reason a great quantity of people have started this activity and is still now approaching this world. We actually noticed, though, that nowadays the approach to this discipline is slightly different compared to the one in the past. As a matter of fact, due to the development of gyms, bouldering is more practised indoor rather than in the open air. Spaghetti Boulder's position inside this area features a specific design perfect for sports activities and daily life».

L'IDEA PRENDE FORMA DURANTE IL PRIMO LOCKDOWN CON L'OBIETTIVO DI CREARE UNA LINEA DI ABBIGLIAMENTO INNOVATIVA, ISPIRATA ALL'ARRAMPICATA MA CON CONTAMINAZIONI STREETWEAR CHE LA RENDANO APPROPRIATA PER TUTTE LE PERSONE CHE SI CONSIDERANO PARTE DI QUESTA NUOVA CORRENTE DEL MONDO OUTDOOR.

THE IDEA OF THIS COLLECTION IS A BRAINCHILD OF THE FIRST LOCK-DOWN AIMED AT CREATING A LINE OF CUTTING EDGE ITEMS, TAKING INSPIRATION FROM CLIMBING WITH HINTS OF STREET WEAR FEATURES, MAKING IT APPROPRIATE FOR THOSE BELONGING TO THIS NEW OUTDOOR STYLE.

«Il nostro proposito è stato fin da subito quello di realizzare una capsule wardrobe che non si limitasse però ai capi di abbigliamento. Spaghetti Boulder vuole essere un brand in cui tutti, arrampicatori e non, possano identificarsi. Il nostro sogno si realizza con una linea adatta alla vita di tutti i giorni ma, allo stesso tempo, curata nei dettagli e con funzionalità strategiche per chi ama praticare sport senza trascurare look e fitting. Siamo convinti di aver raggiunto un perfetto mix and match tra le mille sfumature del lifestyle e dell'outdoor. I colori pastello e i tagli contemporanei contribuiscono ancor più a rendere i capi perfetti per l'arrampicata ma anche per l'aperitivo di fine giornata».

«Our proposal was - from the very beginning — to create a capsule wardrobe not limited only to apparels. Spaghetti Boulder's intention is to be a brand, where climbers and non climbers, can be easily identified with. Our dream is embodied by a fashion collection perfect for every-day's life but, at the same time, accurate in its tiniest and most strategic functional details when offered to sports lovers who never neglect the brilliant combination of look and fitting. We are firmly persuaded we reached a perfect lifestyle and outdoor mix and match multi-faceted nuances. Pastel colours and contemporary style can easily turn items into perfect apparels for bouldering but also for sunset juicy aperitifs».

L'esperienza, il network e le persone che lavorano per Rock Experience hanno costituito un supporto fondamentale nella realizzazione del progetto. Con Spaghetti Boulder, in cui si legge un omaggio sia all'Italia sia all'outdoor, si crea un parallelismo moderno e concettuale con "Spaghetti Western", espressione nata negli Stati Uniti d'America, che indica i lungometraggi girati in italiano, oggi veri e propri cult, associato al boulder contemporaneo. «Abbiamo scelto questo nome proprio per enfatizzare l'idea di una Italian boulder culture. La nostra penisola non solo conta numerose zone iconiche per l'arrampicata ma è anche la culla di arrampicatori oggi diventati leggende. La moderna concezione di questo sport, la naturale predisposizione e l'offerta del nostro territorio hanno acceso i riflettori sull'Italia. Oggi, infatti, la voglia di integrazione sia nel tessuto nazionale che nella cultura made in Italy del turismo sportivo è sempre più presente e costante, anche per questo, la nostra visione, non solo di business, si concentra su questo punto cardine. L'idea di poter indossare un concetto, un'identità e una cultura è stata la nostra fonte di ispirazione e principale obiettivo di questa capsule collection».

Spaghetti Boulder non vuole semplicemente rappresentare l'arrampicata, vuole essere un vero e proprio stile di vita. Il sogno di poter miscelare le discipline sportive dell'outdoor, tra cui anche skateboard e surf, con la lifestyle ad esse associata, è oggi una realtà sotto un marchio completo e innovativo.

PHILOSOPHY

Thanks to Spaghetti Boulder, where Italy and the outdoor world are honoured, a modern and conceptual based dualism was created thanks to "Spaghetti Western", the U.S. expression indicating Italian language feature films, real cult movies, associated to contemporary boulder.

«We actually chose this name in order to emphasize the idea of an Italian boulder culture. Our beautiful peninsula does not only count with several iconic areas for bouldering but it is also the cradle of legendary rock climbers. The modern conception of this sport, the natural layout and the offer of our territory have spotlighted Italy. Nowadays, in fact, integration between Italian national fabric and its "made in Italy" culture of sport tourism is constantly more realistic, and that is also why, our vision, not only business centred, is concentrated on this cornerstone. The idea of wearing a concept, a real identity and culture was our inspiration source and the main objective of this capsules collection».

Spaghetti Boulder's idea is not simply trying to represent climbing, it wants to be a real life style. The imaginative dream of magically combining outdoor sports disciplines, namely skateboard and surf, with their associated lifestyle, is today's full-brand breakthrough reality.

TRAIL

La storia dei tatuaggi parte dalla testimonianza più antica del loro utilizzo. Siamo nel 1991, quando alcuni scienziati ritrovano, sulle Alpi al confine tra Austria e Italia, il corpo congelato di un uomo che visse oltre 5300 anni fa. Viene chiamato Uomo di Similaun e mostra evidenti incisioni riconducibili ad una forma di tatuaggio.

Il termine "tatuaggio" appare, per la prima volta nel mondo occidentale, dalla bocca del capitano britannico James Cook nel 1769, che lo menzionò come tattoo. Questa parola e tutte le sue simili provengono dal tahitiano ta, che significa "dare colpetti" o "colpire", e dal polinesiano tau-tau, che dava termine per il suono derivato dall'antica pratica polinesiana di creare un tatuaggio picchiando un osso contro l'altro sulla pelle.

Oggi il concetto di tatuaggio è definito come "l'azione e l'effetto di tatuare". Per quanto riguarda il termine tatuare, questo consiste in "incidere disegni sulla pelle umana, introducendo sostanze coloranti sotto l'epidermide, mediante le forature o punture precedentemente disposte" e "segnare o lasciare un segno su qualcuno o qualcosa".

Nell'era moderna l'accezione del tatuaggio ha modificato la sua origine malavitosa convertendola in uno stile di vita indipendente e libero. Ad esempio, il tatuaggio iconografico della carpa prende spunto dalla leggenda orientale che narra la risalita di una carpa lungo il Fiume Giallo, per arrivare poi alla Porta del Drago, superata la quale si trasforma in un drago ed acquisendo il dono dell'immortalità.

La carpa ("Koi" in giapponese appunto) è sempre in movimento ed è considerata uno dei pesci con più energia e forza. E' inoltre in grado di nuotare controcorrente, e ciò viene interpretato sia come una rappresentazione anticonformista (la forza di non seguire la corrente, bensì di seguire la propria via indipendentemente dal resto) che come forza di superare le avversità.

Il significato di questa leggenda è legato alla forza di volontà ed al cambiamento in positivo, e merito, dopo i propri sforzi e sacrifici, sottolineando che chiunque, con la forza di volontà, possa arrivare anche ad importanti risultati compiendo grandi imprese.

The history of tattoos shall be narrated from the very start of the record of their first use.

Back in 1991, some scientists found, in the Alps on the border between Austria and Italy, the ice preserved body of a man who lived over 5300 years ago. He was named the Similaun Man and shows evident marks similar to tattoos.

The term "tattoo" appears for the first time in the western world, pronounced by British Captain James Cook in 1769. The word and its similar roots are derived from the Tahitian language indicating "hit", and from the Polynesian tau-tau, reproducing the sound made by the ancient Polynesian practice of creating a tattoo by tapping a needle into the skin with a mallet.

Nowadays tattoos are defined by the "action and the effect of tattooing". Concerning tattooing, this term consists in "marking lines on human skin, inserting pigments into punctures in the epidermis" and "mark or leave an indelible design on somebody or something".

The modern era modified the tattoo meaning turning it from criminal origins to an independent and free life-style.

An example, the karp tattoo icon is inspired by the eastern legend narrating the karp upstream journey on the Yellow River, through the Dragon Gate, then being transformed into a dragon and becoming immortal.

The "Koi" (Japanese word for karp) is constantly moving and it is considered one of the most dynamic, strong and energetic fish. Capable to easily swim upstream, the Karp symbol is interpreted both as an anti-conformist representation (the strength of swimming upstream, living life independently from others) and as the strength of living against all odds.

The meaning of this legend is linked to the will for a positive change, thus underlining that anybody, driven by a strong will, can achieve important results performing great actions.

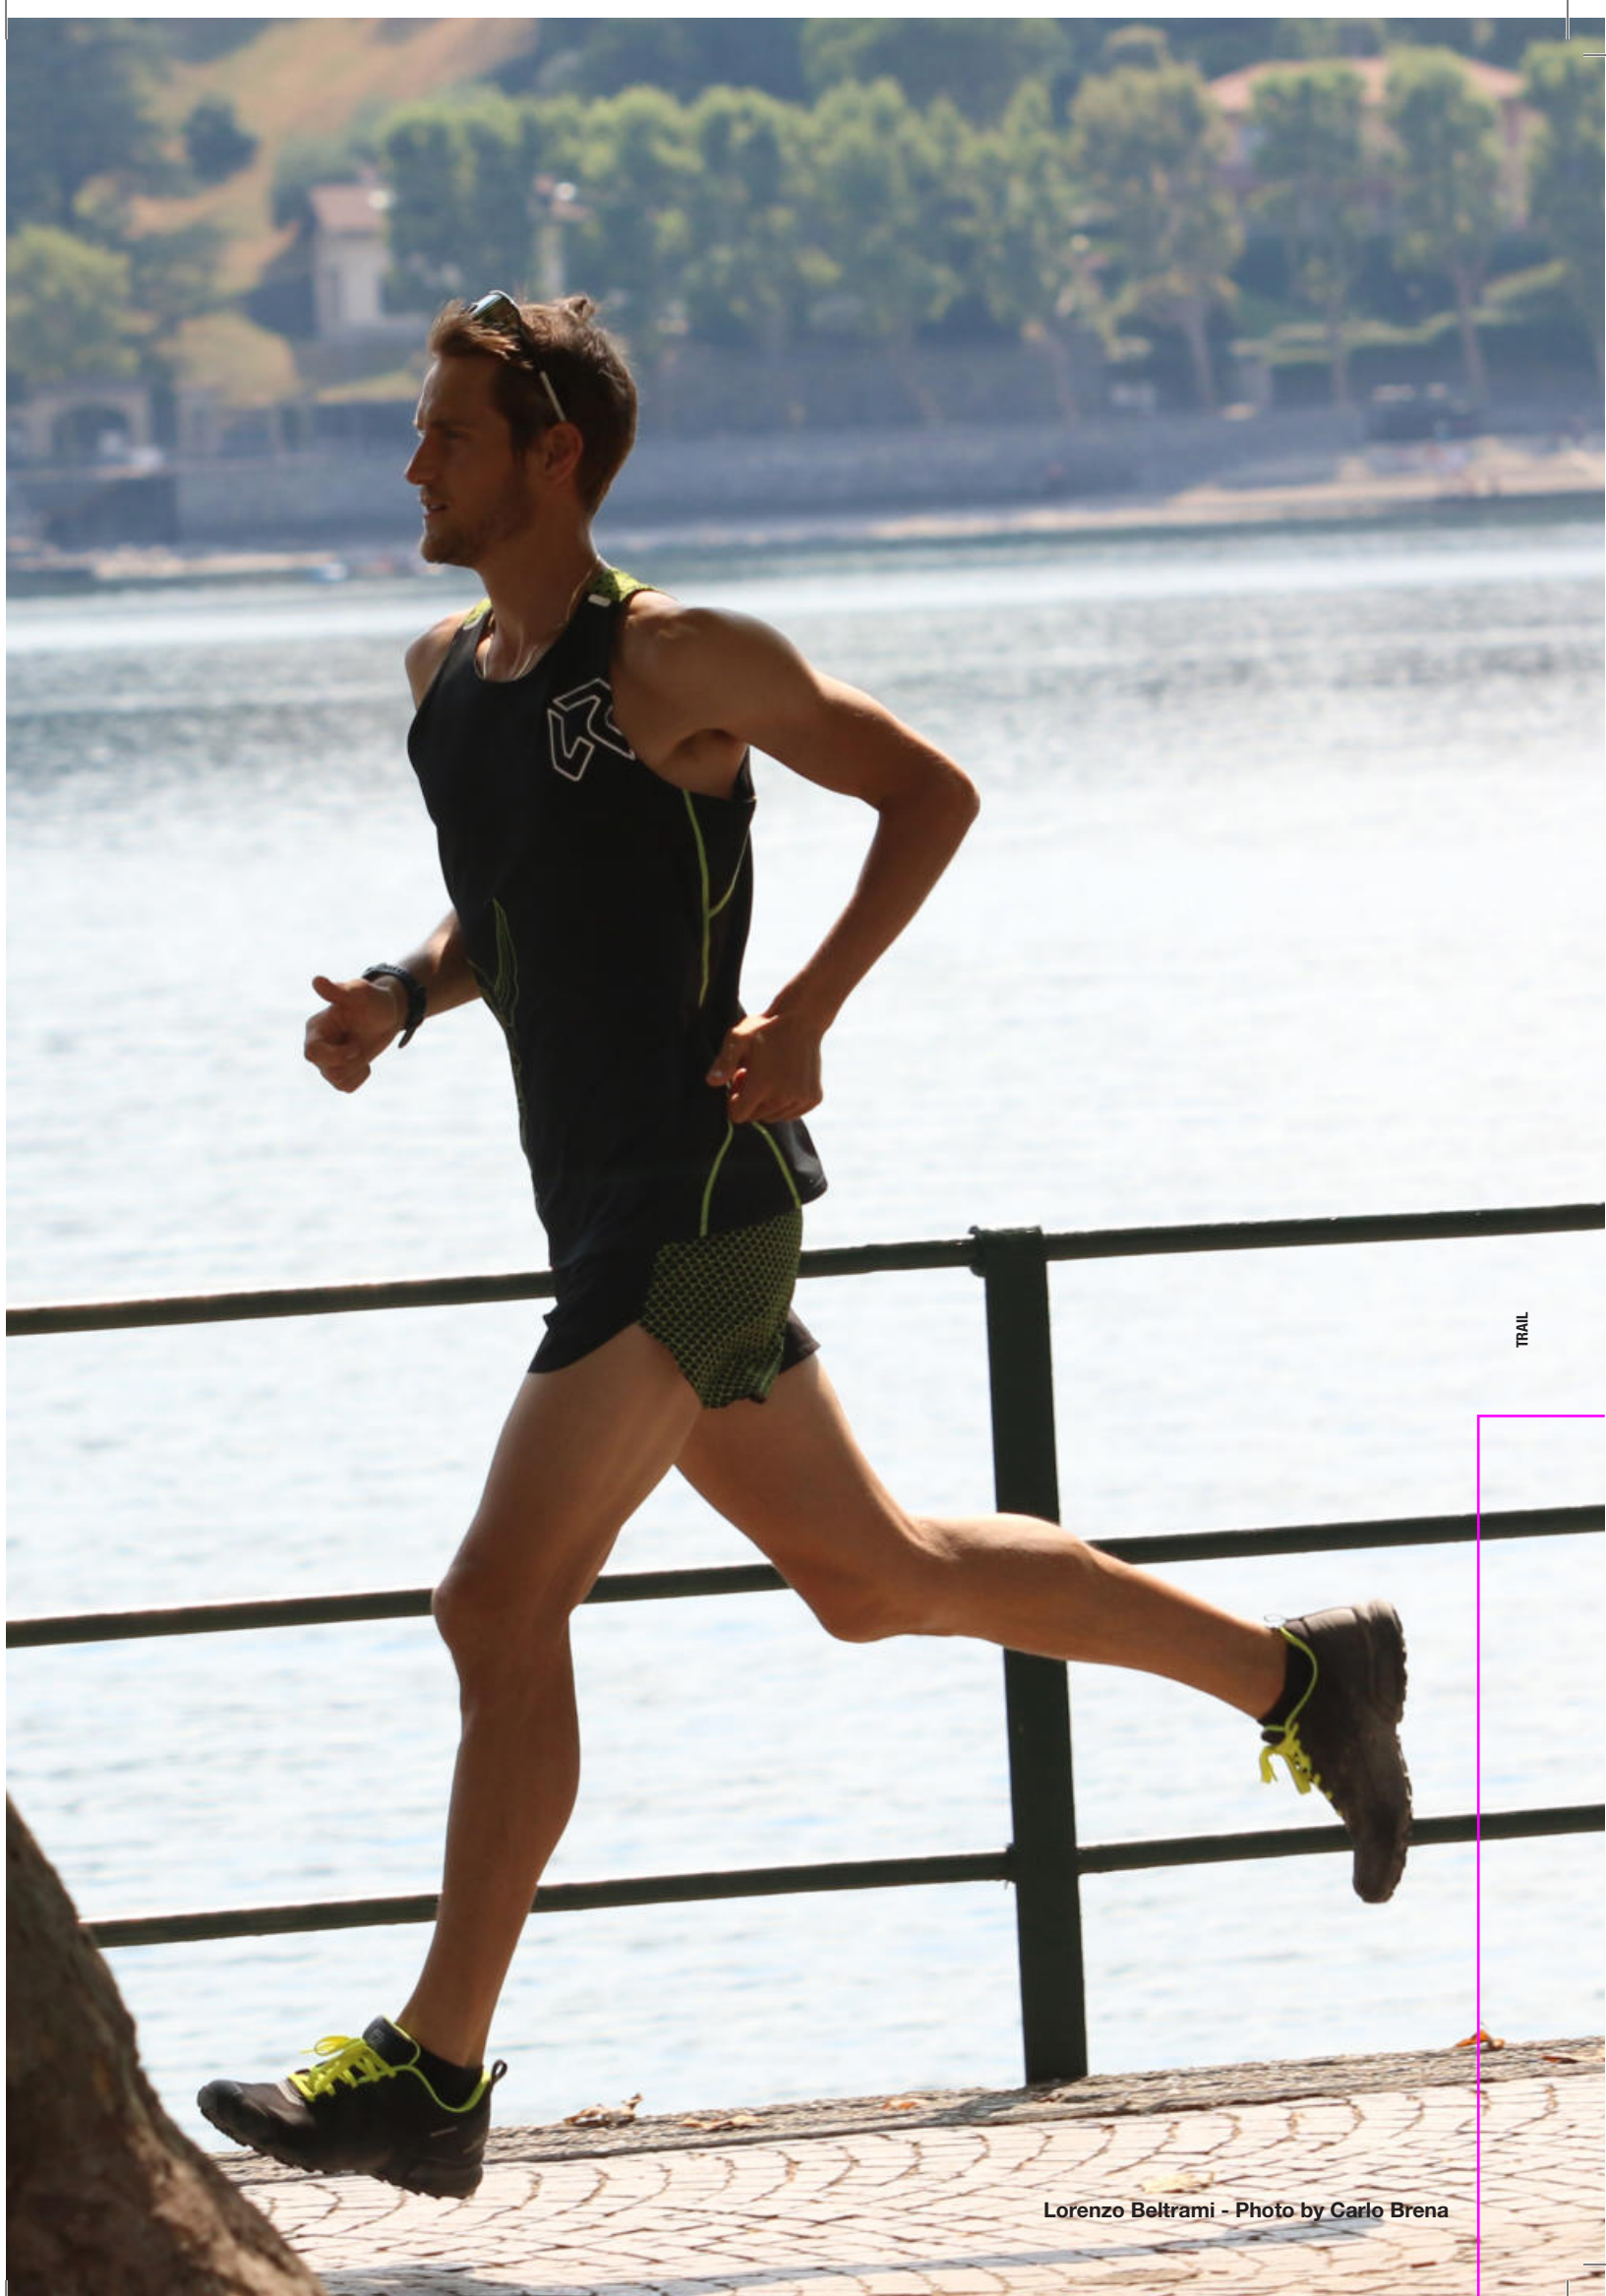

*"Non importa cosa trovi alla fine di una corsa, l'importante è quello che provi mentre stai correndo.
Il miracolo non è essere giunto al traguardo, ma aver avuto il coraggio di partire."*

Jesse Owens

MTB & FREERIDE

MTB & FREERIDE

ROCK BIKE

Per alcuni il freeride si è estinto almeno 10 anni fa. Invece per alcuni come noi il freeride è vivo e scalpita per farsi strada nel mondo contemporaneo e le infinite possibilità che la convivenza tra il mondo urbano e quello naturale ci offrono. Ma che cos'è freeride? Letteralmente "cavalcata libera". Non servono limiti, non servono vincoli, né tanto meno metri di valutazione. Forse serve una bici da freeride. Ma attenzione perché per qualcuno la bici da freeride non esiste, è il biker che è "freeride": si aggira sulle tracce alla ricerca di salti, traiettorie inedite, drop e gradinate. Nella mountain bike, il freeride si aggiunge ad una serie di discipline definite "gravity" tra le quali troviamo il downhill e il dirt jumping, praticabili per la maggior parte con mezzi full suspended.

Leggende metropolitane narrano che, se vi ritrovate in almeno 5 di questi punti allora siete pienamente dentro il mondo del freeride.

For some people, the freeride died at least 10 years ago. But for people like us, the freeride is alive and kicking, ready to make its way through the contemporary world with endless opportunities lying in the combination between urban and nature environment.

But what is freeride in reality? Literally it refers to "riding free". No limits, no constraints, no yardsticks are required. Perhaps a freeride bike. But be careful, freeride bikes – in reality - do not exist, it is the biker itself who is the "freerider": chasing around any opportunity; looking for jumps, for brand new rails, for drops and stairs. In mountain bike riding, freeride is added to a series of disciplines defined as "gravity", such as downhill and dirt jumping, mostly practiced using full suspended equipment.

Urban legends narrate that, if you can mirror yourself in at least 5 of the definitions here below, you can consider yourself fully belonging to the freeride world.

- 1 . Il freeride non richiede una bicicletta in particolare.
Ma averne una aiuta.
 - 2 . Il freeride esisteva prima della bicicletta,
ma non ci sono elementi per affermare il contrario.
 - 3 . Il vero freerider ha tempo da perdere.
 - 4 . Il vero freerider non guarda mai le cartine.
 - 5 . La seggiovia è la morte del freeride.
 - 6 . La seggiovia è la salvezza dei freerider.
 - 7 . Il vero freerider non guarda le previsioni del tempo.
Quelle le guardano solo quelli che fanno Down Hill.
 - 8 . Chi fa Freeride di solito non sa cosa voglia dire,
ma non gliene importa granché.
 - 9 . Per essere un vero Freerider occorre almeno un pellegrinaggio nella mecca
del Freeride: Whistler, Canada.
 - 10 . Qualsiasi discussione sul Freeride è una perdita di tempo.
-
- 1 . Freeride does not require any special bicycle.
But get one, it will help.
 - 2 . Freeride existed before bicycles,
but no evidence can state the opposite.
 - 3 . A true freerider has lots of time to waste.
 - 4 . A true freerider never looks at maps.
 - 5 . Chairlifts are against freeride.
 - 6 . Chairlifts can rescue freeriders.
 - 7 . A true freerider never checks on weather forecast.
Weather forecast is only for Down Hill riders.
 - 8 . Freeriders generally don't know the meaning of the word,
but they don't care.
 - 9 . To be a real freerider you need at least to visit the Freeride Mecca:
Whistler, Canada.
 - 10 . Any discussion on Freeride is a waste of time.

A ROCK EXPERIENCE PIACE PENSARE:

"La bici siamo noi che vinciamo lo spazio e il tempo: soli senza nemmeno il contatto con la terra che le nostre ruote sfiorano appena" Alfredo Oriani

ROCK EXPERIENCE LOVES THINKING:

"The Bicycle is you conquering space and time: all alone without even touching the ground but only brushing it with your wheels" Alfredo Oriani

HAN'HYA MASK

E' uno dei tatuaggi più tradizionali in Giappone: molti tatuaggi giapponesi prendono spunto dai racconti e dalle leggende del teatro tradizionale kabuki.

"Hannya" è una parola sanscrita che significa "saggezza", "virtù" è il sentiero che conduce verso l'illuminazione.

Può essere interpretato e tradotto come delizioso profumo orientale, ma è meglio conosciuto come Maschera usata, appunto, nel teatro tradizionale Giapponese.

Questa maschera chiamata Hannya guarda fisso lo spettatore con gli occhi aperti, la bocca aperta come se lo volesse mordere e divorare. Le corna sulla sua testa sono scintillanti, minacciano di colpire in un attimo di rabbia e passione.

Hannya una volta era una bellissima donna, un giorno fu abbandonata dall'uomo che amava, il suo amore non venne più corrisposto, così divorata dalla propria passione trasformò il suo sentimento in rabbia e gelosia tramutandosi in un potente Demone! Questa maschera non ha un significato malevolo, anzi, tutto il contrario.

Questo tipo di tatuaggio si dice che allontani gli spiriti maligni e che porti buona fortuna alle persone che lo indossano sulla loro pelle.

This is one of the most traditional tattoos in Japan: many Japanese tattoos get their inspiration from tales and legends of the traditional kabuki theatre.

"Hannya" is a Sanskrit word whose meaning is "wisdom", "virtue", and it indicates the path leading to enlightenment. It can be interpreted and translated as a delicious oriental scent, but it better corresponds to a Mask used in the traditional Japanese theatre.

The Hannya mask stares at the audience with eyes and mouth wide open, ready to bite and voraciously eat them. Its sharp bull like horns are shiny, its look menacing violent anger and passion crisis.

Hannya was once a beautiful woman, who was then abandoned by the man she loved, and overwhelmed with jealousy and violent anger after losing the affections of her lover, she transformed into a powerful Demon !

The Hannya mask though, stands as a positive representation and is considered a symbol of good luck. This kind of tattoo is often used as a means of warding off evil.
